

THE BLAIRMORE ENTERPRISE

VOL. XIV, NO. 1.

BLAIRMORE, ALBERTA, THURSDAY, JANUARY 4, 1923.

\$200 YEARLY

MACKENZIE PROPOSITION CONSIDERED

At the special joint meeting of the School Board and Council tonight, the Mackenzie estate was given consideration. No decision was arrived at at the meeting, and it is all probably the

proposition will be turned down. The Mackenzie estate, formerly Hon. Malcolm Mackenzie, holds some 187 lots within the town of Blairmore. Against the entire property there is charged something like eleven and a half thousand dollars by the town and school district, the latter's

portion being but \$2200. The assessed value of the entire property is about \$19,000.

The proposition as advanced is that the town assume title to half the property—88 lots and waive the town's claim against the balance. In consideration of this compromise, a Mr. Carter, nephew of Mrs. Mackenzie, would undertake to spend in the neighborhood of ten thousand dollars in cottages here before the end of 1923.

The property is all contained in the town's 1920-21 tax enforcement return and the period of redemption expires before the end of the present month, following which it will eventually fall into the hands of town and be offered for sale. Considerable of the property is well located and valuable, while a few lots are so located as to be valueless.

CONTRACT AWARDED FOR BLAIRMORE COURT HOUSE

The contract for the new court house and A.P.P. barracks at Blairmore, was awarded last week end to Messrs. Watson & Abernethy, contractors, of Calgary, for the sum of \$29,740, being the lowest of eight tenders.

The contract for a similar building for Drumheller was also let to Messrs. Poole & Allen, of Edmonton.

Work on the Blairmore building will shortly commence, for the contract calls for completion by May the 1st.

Both buildings will be uniform in plan, being of two stories and basement, and of brick and tile construction with a stone finish. Accommodation will be provided in each for guard room, court room, magistrate's office, police offices, dormitory for police and living rooms for the officers commanding.

DEATH OF MISS MCLAREN

Never before has a community been so saddened as is Blairmore this week at the rather sudden and unexpected demise of Miss Rhoda K. McLaren, youngest daughter of Mr. and Mrs. Findlay McLaren and member of the Blairmore teaching staff, at the youthful age of twenty years.

The school closed on Thursday, December 21st, for the Christmas holidays, and on the afternoon of Christmas Day Miss McLaren was obliged to retire and a doctor was called, who discovered that she had developed scarlet fever. Her sufferings lasted only a week, when despite all efforts to save her, the last spark of a bright and most promising young life fled in the early hours of Tuesday morning, January 2nd.

Funeral took place yesterday from the family home on State Street, practically every home in the district being represented in the mass of sorrowing ones. Owing to the quarantine, services were held in front of the residence by the Rev. W. T. Young.

The remains were laid to rest in the Blairmore cemetery. The funeral procession was the largest ever seen here and the floral tributes and other tokens of sympathy extended testify to the esteem in which she was held. Following is a partial list of those who sent wreaths, sprays and flowers.

The family, Fred Houghton, Grandma and Grandpa, Mr. and Mrs. G. Scott, male members of the West Canadian Collieries Head Office Staff, Mr. and Mrs. E. Wright, Mr. and Mrs. L. H. Putnam and Miss Wentzell, Mr. and Mrs. H. Pinkney, Mr. and Mrs. E. T. Hutton, Francis and Bala G. Beau, Mr. and Mrs. J. M. Carter and family, Mr. and Mrs. J. McIne and family, Mr. and Mrs. A. D. May, Mr. and Mrs. Jack May, Mr. and Mrs. J. McNeill, Mr. and Mrs. J. W. Gresham and family, Mr. and Mrs. Alex. May, Mr. and Mrs. J. E. Gilles, P. S. Fitzroy and family, Mr. and Mrs. F. McPherson, Mr. and Mrs. J. F. McLaren and family, Mr. W. T. Patterson, Mr. and Mrs. H. Burns, Mr. and Mrs. R. Green, Mr. and Mrs. F. M. Thompson, Mr. and Mrs. D. C. Drain, Mr. and Mrs. Thomas Dawson and family, Mr. and Mrs. Howe and family, Mr. and Mrs. J. J. Purvis, Mr. G. A. Vissas, Mr. and Mrs. Thibodeau and family, Mr. and Mrs. L. Duff and family, Dr. Roy K. Little, Mr. and Mrs. F. S. Knappman, Mr. and Mrs. J. E. Upton, H. J. Gilles, J. Spence, and A. J. Kelly; Margaret and Peter Stewart, Mr. and Mrs. S. Ennis and family, Margaret and Jean Kemp, Mr. and Mrs. E. Elliott, Mr. D. Jones, Mr. and Mrs. A. Robbins and family, Natsal children, Blairmore School Trustees, Staff and Pupils of Blairmore High School, Principal and Staff of Blairmore Public School, Mr. and Mrs. D. M. J. Conway, Pupils of Public School, Hillvue Chapter, No. 15, R.A.M., Officers and Members of Rocky Mountain Lodge, No. 86, A. F. & A. M., Pearl Moran, Employees of F. M. Thompson Co.; West Canadian Girls; Misses M. Bond, M. Metzler, C. Metzler and M. Sartoris; Mr. F. H. Peileck, Mr. and Mrs. A. Penman and family.

The loss of Miss McLaren will be most keenly felt in the community. Being of a lovable and cheerful disposition, she was a friend of all. As a teacher, her capabilities were such that she was looked upon by the inspector of this district as one of the best. By her pupils she was endeared and most highly respected.

She is survived by her parents and one sister, Miss Oia.

With the sorrowing ones we join in sympathy.

CARD OF THANKS

Mr. and Mrs. F. McLaren wish to express their thanks to the many friends for assistance during the illness of their dear daughter Rhoda and for the many floral offerings and other expressions of sympathy with them in their bereavement.

JOINT INSTALLATION OF MASONIC OFFICERS

At a joint meeting of members of Coleman, Hillcrest and Blairmore Masonic lodges held here on Wednesday evening of last week, the officers of the three lodges were duly installed by East District Deputy Grand Master, the Right Worshipful Brother Alex. Cameron, of Coleman, as installing officer.

During the evening past masters' badges were presented to Bros. Chappell and Robert, of Rocky Mountain Lodge, by W. Bro. W. J. Huston, and to Bro. Crichton, of Sentinel Lodge by W. Bro. George Patterson.

The officers installed for Rocky Mountain Lodge were:

W. M.—W. Bro. G. Evans.
L. P. M.—W. Bro. W. H. Chappell, and for the many floral tributes sent.

Joint.

S. W.—Bro. Harry Burns.
J. W.—Bro. R. W. H. Pinkney.
Treasurer—Bro. W. A. Beebe.
Secretary—Bro. James Crowder.
Tyler—Bro. Thomas Haras.
S. D.—Bro. R. D. McMillan.
J. D.—Bro. I. Comfort.
S. S.—Bro. A. R. Granger.
Chaplain—Bro. H. H. Griclach.

After the installation ceremony the brethren sat down to a sumptuous repast, during which the usual toasts were proposed and responded to.

CARD OF THANKS

Mrs. T. Madden and family, of Lundbreck, desire to thank their many friends for the kind sympathy shown them in their recent and bereavement and for the many floral tributes sent.

The Store With the Good Goods

"I Had Bilious Attacks and Stomach Weakness"

Mrs. Wm. Robinson, Yonker, Sask., writes:

"I suffered from stomach and liver trouble, and used to have bilious attacks so bad that I could do nothing for weeks at a time. My stomach would be so weak that not even a drink of water would stay on it. On my sister's advice, I began to use Dr. Chase's Kidney-Liver Pills, and must say that they have made me feel like a new woman."

Stop The Suffering And Loss

Statistics appearing in official Government reports do not, as a rule, make very interesting reading. They are, however, frequently most instructive, but because they are so formal, they are not always so easily taken into account. The compilation of these statistics and their publication cost a lot of money. Even if people generally do not read and study the facts and figures presented, the money is not lost nor wasted because such information forms the basis upon which Governments and other public bodies formulate policies and act.

A few days ago the annual report of the director of vital statistics for the Province of Saskatchewan for the year 1921 was made public, and, inasmuch as conditions in the three Prairie Provinces are not materially different, the information therein set forth, and the conclusions to be drawn therefrom, may be considered as applicable in large measure to all these Provinces.

According to this report, 6,170 deaths occurred during the year, or 48.3 less than in the preceding year, a most gratifying fact. But there are other facts noted in connection with this mortality record which are not gratifying, nor to the credit of the people of an enlightened country. For instance, over one-third of all deaths were of infants under one year of age. Yet it is safe to say that, if proper pre-natal care had been taken, and reasonable care taken following birth, the vast majority of these little ones could have been saved. This report discloses the fact that 211 persons died of pneumonia. This figure, however, was less than one-half that of 1920 when 691 deaths from tuberculosis were reported. Here, then, is another most gratifying fact. It proves that the persistent campaign being waged against White Plague is having the desired effect, and it would seem to establish the truth of the statement that it is possible to stamp out his dread disease, just as yellow fever and smallpox have practically been removed from the list of diseases which scourge the human race.

Another feature of the report is not so encouraging. It records an increase of fifty per cent in the number of deaths from cancer. The fact is also noted that the death rate from cancer is steadily rising, the rate being only 15 in every 100,000 population in 1914 but 23.2 in 1921; or more than double.

Deaths from communicable diseases in 1921 totalled 928, or 399 less than in 1920, which is certainly good news. But before Saskatchewan boasts of this record, it should give earnest consideration to the further statement in the report that the number of deaths from scarlet fever and diphtheria was much higher than in the preceding year, and that the estimated loss to the Province from deaths through communicable diseases totalled no less a sum than one and one-half million of dollars. Let us find people, including legislators and municipal councillors, criticizing and opposing grants for public health work and prevention services, municipal hospitals and municipal nursing services.

People complain bitterly of the losses sustained by the West through high freight rates, customs tariffs, and inadequate grain marketing methods; yet they view with apparent indifference and little concern an annual loss of millions of dollars and thousands of lives, which loss could largely be overcome through the exercise of proper preventive measures and care.

Some attention has been given in this column during recent weeks to the important subject of immigration and Canada's need for a larger population. That series of articles was introduced by an argument for the creation of conditions which would enable people already in the country to make a success of their farming activities, and thereby retain population we now have because it surely is realized that our own people are preferable to incoming and untutored immigrants. It is even more important, that, to the full extent of our power, we should create conditions which will save to Canada the children born in this country—our native-born.

Yet Saskatchewan alone lost through death in 1921 no less than 2,413 children under the age of five, and of this number over 1,200 died within one week of birth. That is to say, one out of every five deaths in Saskatchewan is a baby less than seven days old. Neither an all-wise Providence nor nature intended that such things should be, and such losses should be the people of the West with the imperative necessity of re-doubling their efforts during this new year to prevent disease, and thereby not only save life, but mitigate much of the suffering in the world, the bulk of which is directly caused through disease.

The Ku Klux Klan

Operations of this Organization Not Likely to Impress Intelligent People

Altogether too much attention is being given to purported activities of the Ku Klux Klan. This organization, with its silly rituals and gibberish about "kings and wizards," has achieved certain notoriety in states of the Union famous chiefly for their illiteracy, and, indeed, it is largely from the illiterate that its ranks are recruited; but one cannot imagine it impressing intelligently communicative. Talk of Government action to suppress it in Canada is nonsense. The kind of gentry who are so lacking in sense, not to mention courage as to cover their faces, in sheets, are not likely to require more than public attention and sense of humor to keep them under leash.—The Ottawa Journal.

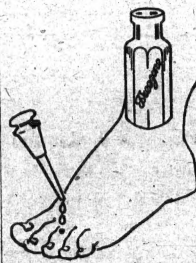

Strange Things In Nature

The Struggle for Existence in the Plant World

In the Minnesota Horticulturist is this note by Mr. J. W. Taylor: "The struggle for existence and reproduction in the vegetable and floral world is wonderful. As an instance of this which may be of interest is the reproduction of the tiger lily bulb from the seed or minute bulb found on the stalk at the junction of the leaves. I have a bunch of these lilies about six feet from a rocky. Three years ago some seeds from this group were blown on to this rocky and took root among the rocks and worked themselves into the ground to a depth of several inches, forming full-sized bulbs from which we had blooms this year. It would seem to be impossible for these little bulbets to work their way to such a depth. The first year the seeds sent a small root into the ground, the bulblet being still on top of the earth; gradually before winter it disappeared. How do they find their way down? Are they pulled by the roots? I would like to know how they get to the required depth to form the large bulb. Will someone answer?"

CORNS

Lift Off with Fingers

"Doesn't hurt a bit! Drop a little 'Freezone' on an aching corn, instantly that corn stops hurting; then shortly you lift it right off with your finger. Truly!"

Your druggist sells a tiny bottle of "Freezone" for a few cents, sufficient to remove every hard corn, soft corn, or corn between the toes, and the calluses, without soreness or irritation.

Mahogany veneer is being used in England for the surface of airplane wings as this material successfully withstands all kinds of weather.

DISTRESS IN THE THROAT CAUSED GREAT ANXIETY

Not an uncommon experience was that of Mrs. H. S. Wilmet of Shule, N.S. "Many remedies failed, still unimproved results were found in 'Catarrhose.' I have been the most distressed sufferer from bronchial asthma and Catarrh. On damp days, I would hawk and suffer great distress in my throat. I used all kinds of remedies, but nothing gave me relief till I used Catarrhose. It strengthened my throat, stopped my cough, and made me well." Try Catarrhose yourself, see what wonders it works on a bad throat, or cold, catarrh, bronchitis. Different from the old way, because you breathe Catarrhose. Get the dollar outfit which includes the inhaler and lasts two months. Small size 50c. Dealers, The Catarrhose Co., Montreal.

Household Hints

Valuable Recipes For The Busy Housewife

Baked Bananas With Sultana Sauce
1 cup Sun-Maid Sultana raisins.
1 cup boiling water, 1 cup sugar.
1 teaspoon butter, 1 teaspoon vanilla.

8 tablespoons cornstarch.
8 bananas.

Pull down a section of the banana peel, loosen the pulp from the rest of the peel; remove all coarse threads and replace fruit in its original position. Set the bananas in a granite pan into the oven and cook until the peel is blackened and the pulp is soft (about 20 minutes in a moderate oven).

Cook the "cleaned" raisins in the boiling water adding water as needed. Mix and sift the sugar and cornstarch and add to the raisins. Stir until boiling then let simmer for ten minutes, and add butter and flavoring. Remove bananas from the peel to a hot plate, pour the sauce over them and serve at once.

Delicate Party Cake
1 cup butter, 2 cups flour.
4 egg whites, 1/2 cup hot water.
1/2 cup nut-meal, 1 teaspoon lemon juice.

1/2 cup Sun-Maid raisins.
2 teaspoons baking powder.
1 1/2 cups sugar.

Cream together the butter and sugar; sift together the flour and baking powder; put the hot water into the butter, and then gradually add the flour and baking powder. Lastly beat in the beaten whites of the eggs. Bake in two layers in a moderate oven. Put together with a filling made by running the raisins and nuts through a meat grinder, adding the lemon and a little confectioner's sugar and thoroughly blending. Frost top with a white icing and decorate with candied or maraschino cherries.

Interesting Find In Nebraska

Prehistoric Bones of Rodents and Reptiles Are Unearthed

Fragmentary evidence of unclassified prehistoric rodents and reptiles has been found by Albert Thompson, paleontologist, in the ranchlands of Nebraska, where in former years research workers have uncovered the remains of mastodons, rhinoceroses, giant camels, alligators, dwarf horses and other queer beasts.

The bones of the strange animals were uncovered on a ranch in Sioux County while Mr. Thompson, who is a member of the paleontological section of the American Museum of Natural History, was searching for skeletons of three-toed dwarf horses.

Mr. Thompson began the study of paleontology while employed as a cowboy in the Dakota Bad Lands more than thirty years ago. He was especially interested in the remains of the three-toed horse and other types of beasts of the same family.

In the interest of this work he went to Nebraska early last summer. Although several students he began digging in a channel bed that appeared to be rich in bones of all sorts. He found bits of the dwarf horse, of the alligator and of other animals, and he came upon portions of skulls the character of which was new to him.

He delivered further in an effort to uncover complete skeletons. His student helpers returned to their schools and he kept on alone, but had no further success.

Bad weather finally set in and Mr. Thompson was compelled to abandon his work. He had, however, collected hundreds of bones and skulls of great research value. He plans to return to Sioux County next summer and make an effort to find complete skeletons of the strange type of rodents and reptiles of which we have fragments.

His Use "So your wife likes to have you go shopping with her; does she?"

"Yes, she gets me to make the selection and then she takes something else."

Signature of J. C. Ayer & Co.

The Good Old Days

Do Not Compare Very Favorably With Twentieth Century

A Scottish Journal says: Those who lament the good old days and compare them favorably with our own should be told that "the beginning of the seventeenth century chairs for ordinary household use were unknown. Hats were worn at meals. Washing formed no part of the morning toilet even in Charles II's time, and very few in any country in Europe washed their faces every day. The value of forks did not become general until the eighteenth century, and food was picked from the general dish and raised to the mouth with the fingers.

As one reads such records one cannot help but realize that the nineteenth century, and its ways—Presbyterian Witness.

The Druggists All Agree, That "Putnam's" Is Best

Saskatchewan School Trustees Association

Eighteenth Annual Convention to Be Held in Moose Jaw

The Eighteenth Annual Convention of the Saskatchewan School Trustees Association will be held in St. Andrew's Presbyterian Church, Moose Jaw, Sask., on the 26th, 27th, 28th, 29th, 30th, and 31st of February, the 21st, 22nd and 23rd, 1922.

Each school district in the province is entitled to send a delegate who can be appointed at the annual meeting or by the trustees themselves. The expenses of the delegates can be paid by the school district.

The annual membership fee is \$2.00 and should be forwarded at once with the name of the delegate and the district, to the Secretary, J. H. Cunningham, 1920 Smith St., Regina.

Delegates are requested to secure a single fare first-class railway ticket over every railway travelled; at the same time obtain from the agent a standard certificate. If the agent has no standard certificates, get a receipt for the money paid.

The fare of all delegates will be pooled. All resolutions must be in the hands of the Secretary, 1920 Smith St., Regina, before February 10th. Resolutions should be signed by trustee or district sending them in.

This year's convention will be the most important to date and indications are that the attendance will exceed that of any previous year.

Among the speakers already arranged for, are, Hon. Chas. A. Dunning, Premier of Saskatchewan; A. H. Ball, M.A., L.L.B., Deputy Minister of Education; J. H. McKelvie, M.A., D. Ed., Chief School Inspector; Archibald Mitchell, Forestry Department; John McCall, B.A., B.D., President of Manitoba College; Norman McRae, celebrated Canadian entertainer.

Invitations have been extended to Hon. MacKenzie King, Premier of Canada; Prof. Walter Jessup, President of the University of Iowa; Prof. Louis Coffmann, Dean of the College of Education, University of Minnesota; President, Illinois State University, Washington, Seattle; Prof. Holden, of Chicago, the most eminent agricultural authority in America.

Through the kindness of the Canadian Pacific Railway Company, the wonderful moving picture films of Canadian scenery will be exhibited at the evening sessions.

Through the courtesy of the Leader Publishing Company, a radio concert will be put on for half an hour before each evening session.

Lepers Like Hawaii

Are Discharged As Cured But Want to Stay on Molokai Isle

Patients of the leper colony on Molokai Island, who are facing discharge as cured, are being urged by the Hawaiian government to remain on the island, as the leprosy is a contagious disease, and it is unwilling to leave, according to Gov. Wallace R. Farrington, who has just returned from an inspection trip. The government is petitioning that the patients be made available to them under a rehabilitation act, farms on Molokai, adjoining the settlement, so they will not be forced to leave the island.

Danes Coming to Canada

Two Hundred Danish Families Planning to Take Up Farming Here

On account of the great unemployment in Denmark, 200 families, all farmers, of the northern part of Jutland, intend to emigrate to Canada. It is stated that the Canadian Government has promised to place land and facilities at their disposal.

Representatives of the emigrants have asked the Government for financial help to make the voyage to the Dominion, but they have not yet had an answer to their request.

MOTHER!

Clean Child's Bowels with "California Fig Syrup"

Even a sick child loves the "fruit" taste of "California Fig Syrup." If the little tongue is coated, or if your child is listless, cross, feverish, full of cold, or has colic, a teaspoonful will never fail to open the bowels. In a few hours you can see for yourself how thoroughly it works all the constipation poison, sour bile and waste from the tender, little bowels and gives you a well, playful child again. Millions of mothers all over the "California Fig Syrup" handy. They know a teaspoonful today saves a sick child, the creditor of the debt, but in a few hours you can see for yourself how thoroughly it works all the constipation poison, sour bile and waste from the tender, little bowels and gives you a well, playful child again. You must say "California" or you may get an imitation fig syrup.

An Important Ruling

Money May Be Recovered If Wrong Person Paid

A ruling of importance to banks has been delivered in the Court of Appeal, Montreal. Under it, whoever pays to a person believing him to be the creditor of the debt, but who is not, may recover against the person receiving payment.

On this principle an appeal by the Bank of Hochelaga to recover a sum of \$474.65 paid by them to A. Mathieu et al in error, when the actual creditor was the trustee of the estate of the late Hon. Wilfrid Provost, was maintained.

Rather Aggressive

"How do you like school, my little darling?" asked the fond mother, after his first day at school. "It's fine," he replied. "I've kicked two boys already for calling me mother's little darling."

Keep Them Growing

Children who are over-thin, listless or delicate, should take Scott's Emulsion regularly every day as a aid to growth and sturdiness. Nothing surpasses Scott's Emulsion as a tonic-nutrient for a child of any age. Scott's Emulsion, Toronto, Ont.

New York Secures Wagner's Piano

Instrument Used By Great Composer Will Be Placed in Museum

Richard Wagner's piano, perhaps the most valuable in the world, has arrived in New York from Hamburg. The instrument, an old-fashioned Bechstein grand, was presented to Wagner by King Ludwig of Bavaria, and upon it the great musician composed many of his masterpieces.

For years the piano's whereabouts was unknown, until Robert H. Prosser, of the A.E.F., came upon it and arranged for its shipment to this country. It will be placed in the Metropolitan Museum or the Smithsonian Institute, Mr. Prosser announced.

If somebody would only pull the sled up the hill for us it would be one long, delightful slide.

Discoveries in the Transvaal

Archaeological Interest

A discovery of considerable archaeological interest has been made thirty miles in the Transvaal, near the Bechuanaland border.

A prospector has unearthed what is apparently a portion of an ancient smelting plant and a quantity of slag, which is being submitted to expert examination. Nearby were old workings and a substantial body of ore containing a whitish metal, thought to be platinum or molybdenum. Mining engineers have left for the scene of the discovery.

Clemenceau Says Career Is Over
Georges Clemenceau, France's noted war-time premier, returned to Paris from a thirty-nine day trip to the United States. He indicated by a few casual phrases that if there was any import to his visit the American people would get it. "I have got sense enough," he declared.

He added that for him, his journey was the chapter that ended his career.

Soft corns are difficult to eradicate, but Holloway's Corn Remover will draw them out painlessly.

Pioneer Manitoba Fruit Grower Dies
P. P. Stevenson, Manitoba pioneer fruit grower, is dead in California. A report states, Mr. Stevenson was among the first farmers of the west to make a success of fruit growing.

On the Stevenson farm a few miles northwest of Morden, every variety of small fruit, from strawberries to peaches, was grown.

A young man seldom realizes how dear his best girl is until he goes broke trying to make her wishes come true.

Minard's Liniment for Neuralgia

Thinks Time Is Ripe For Completion Of The Hudson's Bay Road

The Pas, Man.—That the situation in connection with the Hudson Bay Railway is critical and that the present is the psychological time for the west to battle and fight for the completion of the road, was the contention of Commissioner J. A. Campbell at a meeting held at The Pas under the auspices of the Board of Trade.

Mr. Campbell stated that Premier Dunning had promised that the Saskatchewan Legislature would consider the matter at the next session, and Premier John Bracken and Provincial Treasurer Black had given an assurance that the Manitoba Government would fall in line with Saskatchewan. He had also received an assurance that the question would be dealt with at the Saskatchewan Grain Growers convention to be held in January, and would also be discussed at the U.F.M. convention at Brandon in January.

A conspiracy, he said, was on foot among eastern interests to fight against completion of this railway, and propaganda was being circulated with this object in view. Unless the west awakened from its state of somnolence, the east would prevail, and not only would the completion of the line be postponed indefinitely but part of the line already laid would be destroyed. With complete unity of western members at Ottawa, this matter could, he was confident, be pushed through.

Will Discuss Boycott Of British Goods

All-Indian National Congress Taking Up Many Questions
Gaya, Bengal, British India.—Delegates from all parts of the country have arrived here for the all-Indian National Congress. Interest centres on the question of whether the non-cooperators should seek election to the legislative councils.

The subject committee has adopted a resolution to be submitted to the congress of the appointment of a committee to report what British goods can be successfully boycotted. A number of other political and religious conferences will be held during congress week. There will be a discussion on the caliphate controversy, many Mussulmans holding that the caliphate must be vested in the same individual.

Make Further Move For Peace In Ireland During Holiday Season

Dublin.—Another move for peace in Ireland was made over the Christmas holidays. At a meeting of Sinn Féin clubs at the Mansion House a resolution was passed in favour of renewing the last Armistice, or general convention of Sinn Féin clubs, with a view to taking steps to securing a just and permanent peace. This conference has been summoned for January 7.

Ireland passed a very peaceful Christmas. For nearly three days the country has been free from crime. The cabinet ministers for the first time in many years left the Government Buildings, going to spend the holidays with their families. The railway companies reported that some 80,000 persons crossed the country to pass the holiday period with relatives in Ireland.

Although these are regarded as signs of increased confidence in the Government, anxiety is not altogether absent. There were rumors that the irregulars contemplated a bold move in Dublin on Christmas Eve, but the army authorities guarding against possible danger by cancelling all leave to the troops with the exception of those living in Dublin.

Ex-Kaiser Cannot Collect Interest On British Bonds
Brussels.—The decision of the lower court that former Emperor William has no right to collect interest on British bonds has been sustained by the court of appeals in a decision handed down. The court ordered a Brussels exchange broker to refund to the British bank involved several million francs paid on coupons which the bank later learned belonged to the ex-Kaiser.

The ownership came to light when the British Government protested against the payment. The Dutch bank figuring in this case said to be one of several through which the former Emperor sent some coupons to be cashed so that no trace of their origin might be lost was exonerated as an innocent party.

Hide Prices Advance

Advancing Leather—Green Boots Demand for Prices Hides
Winnipeg.—Packers and drovers are sending messages all over the prairies concerning advancing prices of green hides. Twelve cents f.o.b., Chicago means an increase of two to three cents through the prairies, slightly less for butcher hides in favor of packers' products. The fluctuation in green hides this fall is due to advancing leather prices and the possibility of many Canadian hides, for which Chicago is the only market, being diverted to England as a result of the raising of the Canadian cattle embargo.

HEART PALPITATED And Was Short Of Breath

Through one cause or another a large majority of people are troubled more or less, with some form of heart trouble. Many people may be unaware of having anything wrong with their heart till some little excitement, over work or worry starts it to palpitate and throb, skip beats, beat fast for a time, and then return to normal almost to stop, then it causes great anxiety and alarm.

For all such sufferers
MILBURN'S
HEART AND NERVE PILLS
will give prompt and permanent relief. Mrs. Alice Bishop, 15 Hawthorne, E., Hamilton, Ont., writes: "I take pleasure in recommending Milburn's Heart and Nerve Pills to all persons troubled as I had been."

I suffered from palpitation of the heart and shortness of breath; my heart would skip beats, and in the night, at times, I would have to sit up to get my breath. I could not go up stairs without my heart fluttering, and my nerves were all unstrung, but since using your famous Pills I have felt like a different person."

For Permanent Wheat Board
Winnipeg.—Legislation to authorize the appointment of a royal commission to investigate every detail of the grain handling system, closing of all mixing houses, and a permanent wheat board, to have a monopoly of all grain purchases and sales in the three prairie provinces, are urged in a resolution passed by the rural municipal conference of Franklin, Man.

Refuge for Exiled Sultan
May Be Quest Of King Hussein Of Hedjaz
Cairo.—A message from Jeddah states that the exiled Sultan of Turkey has informed King Hussein of Hedjaz, that he is unable to say yet whether he will accept Hussein's invitation to reside at Mecca.

He has decided to seek refuge in some Moslem country, and promises to advise King Hussein later whether his choice will be Mecca. The ex-Sultan makes no reference whatever to the "family" he deserted in Constantinople.

Alberta Drought Relief Act
Debts to Amount of Over \$20,000 Handled During Past Six Months
Calgary.—During the six months just closed debts approximating between \$20,000 and \$25,000 have been handled under the Southern Alberta Drought Relief Act.

From figures prepared it is shown that the office staff was 22, consisting of the commissioner, six clerks, eight stenographers, six corresponding and filing clerks and one inspector. The total expenses for the six months, including salaries, were \$16,000.

Form Last Past Fund
Winnipeg.—With the granting of a sub-chapter by the Dominion headquarters, announcement is made here by Arthur H. D. Hair, Dominion Organizing Secretary, that a provincial branch of the Last Past Fund of Canada has been formed in Manitoba. Albert Pearce has been appointed provincial secretary with James Caruther and Col. F. H. Osler as trustees.

Bank Deposits Show Increase
Ottawa.—An increase of over \$11,000,000 in the total amount of savings deposits in Canadian banks during the month of November and of nearly \$18,000,000 in demand deposits is shown by the statement issued from the finance department. Demand deposits at the end of November totalled \$544,446,720 as compared with \$531,491,425 at the close of the previous month. Notice deposits totalled \$1,167,609,095 as against \$1,158,442,463 on October 31.

Must Refund Money To British Bank

Ex-Kaiser Cannot Collect Interest On British Bonds
Brussels.—The decision of the lower court that former Emperor William has no right to collect interest on British bonds has been sustained by the court of appeals in a decision handed down. The court ordered a Brussels exchange broker to refund to the British bank involved several million francs paid on coupons which the bank later learned belonged to the ex-Kaiser.

The ownership came to light when the British Government protested against the payment. The Dutch bank figuring in this case said to be one of several through which the former Emperor sent some coupons to be cashed so that no trace of their origin might be lost was exonerated as an innocent party.

Greek Government Refuses Turks' Demand

Has No Thought Of Withdrawing Patriarch From Constantinople
London.—An Exchange Telegraph despatch from Athens gives Premier Comatas as authority for the statement that the Greek Government has no thought of acceding to the Turkish demand for withdrawal of the Greek Patriarch from Constantinople even if the Allied powers accept the Turkish viewpoint as expressed at the Lausanne conference. The Premier asserted that his office has not received the question a national one upon which no Greek ministry could give way.

Ban Arbuckle Films

Ontario Will Not Lift Ban Placed Some Time Ago
Toronto.—The ban on the presentation in Ontario of "Fatty" Arbuckle films remains exactly as it was when put into effect following the arrest of Arbuckle in the Hollywood case. In action looking to the lifting of the prohibitory order has been considered.

Such was the information given at the office of the Ontario Board of Censors in reply to an inquiry as to whether Arbuckle pictures would be shown again in Ontario in consequence of the decision of Will H. Hayes, head of the movie industry, to give the fat comedian a chance to redeem himself.

Refuge for Exiled Sultan

May Be Quest Of King Hussein Of Hedjaz
Cairo.—A message from Jeddah states that the exiled Sultan of Turkey has informed King Hussein of Hedjaz, that he is unable to say yet whether he will accept Hussein's invitation to reside at Mecca.

He has decided to seek refuge in some Moslem country, and promises to advise King Hussein later whether his choice will be Mecca. The ex-Sultan makes no reference whatever to the "family" he deserted in Constantinople.

Cattle Buyers From Britain

Big Cattle Kings Coming Over to Purchase Canadian Grade Stock
St. John, N.B.—An interesting passenger on the Canadian Pacific steamship Minnedosa, which arrived in St. John recently, was Hon. Duncan Marshall, Commissioner of Agriculture and Canada, who has been in England since last September in connection with the cattle embargo.

Speaking of the embargo on Canadian cattle, he said that prior to his departure for Canada he had the pleasure of seeing this important question settled. The question of the lifting of the embargo was watched with the keenest interest throughout England and its passage paved the way for a visit to this country of many of the big cattle kings, who announced their intention of coming here during the winter to purchase all grades of stock. All expressed great satisfaction at the removal of the embargo, as well as the glad tidings given them that it was proposed to remove the Canadian quarantine on British pure-bred cattle in this country.

Women! Dye Things New In Diamond Dyes

Each package of "Diamond Dyes" contains directions so simple, any woman can dye or tint her hair, shabby dresses, skirts, waists, coats, stockings, sweaters, coverings, draperies, hangings, everything, even if she has never dyed before. Buy "Diamond Dyes"—no other kind—then perfect home dyeing is easy because Diamond Dyes are guaranteed not to peel, fade, streak or run. Tell your druggist whether the material you wish to dye is wool or silk, or whether it is linen, cotton or mixed goods.

Photograph Drunken Men

"Picture Cure" Will Be Tried Out in Des Moines
Des Moines, Iowa.—John B. Hammond, Chief of Police, has announced that every drunken man who is brought into police headquarters here after will have his picture taken. When the offender has become sober again he will be presented with a picture of himself, so that he may know just how he looked when he was brought to jail. Hammond hopes this "picture cure" will be a potent weapon against drunkenness.

Say Germany Is Defaulting

Has Not Delivered Wood Demanded For This Year

Paris.—The Allied Reparations Commission for the first time in its history declared Germany to be in voluntary default in one of her reparations obligations. The default declared was in delivery of wood demanded of her for this year. The vote was three to one, France, Belgium and Italy voting for the declaration and Great Britain against it.

Earthquake In Australia
Melbourne.—The earthquake of Christmas afternoon was confined to the upper and middle portion of the north island. The shock was especially severe in North Canterbury, and recalled memories of the quake in Cheviot County in 1901.

Minister Of Labor Puts Blame On Reds For Alberta Mine Strike

Crew of Vessel Rescued

Saved From Almost Certain Death After Battle With Storm
New York.—The captain and crew of the two-masted schooner Gordon Fudge, of St. John, Nfld., came into port on the British freighter Nenemine, after being rescued from almost certain death in a violent storm at sea six days ago.

The Nenemine picked up the schooner 1,000 miles off the United States coast. The little boat was bobbing around in the gale, her sails in shreds and her rudder post shattered. Both her lifeboats had been crushed.

Colic, Cramps, Stomach Pains Need a Quick Relief

Security against these sudden ills consists in always keeping handy a bottle or two of Nerviline. No family should ever go to bed unless Nerviline is in the house. Money can't buy much greater assurance against the many small ills that constantly arise in every family than you get in a 50c bottle of Nerviline. Sold everywhere.

Britain Will Import Peruvian Rams

Wish to Test Possibilities of Producing Merino Wool
London.—Several hundred head of rams are to be imported into this country from Peru in order to test the possibilities of producing merino wool, or merino cross wools, in the British Isles.

The plan is the result of efforts by many wool manufacturers in the north of England to breed sheep of which would produce a grade of wool as fine as that produced in South America. At the present time the finest wool produced here is graded as coarse.

Should the initial efforts be successful, it is probable that all the present large docks will be gradually killed to make way for the finer breeds, as these command prices four times higher than the present British product.

Removing to Ottawa
Lethbridge.—Senator Deverber, pioneer medical man and politician, is leaving Lethbridge and moving to Ottawa. The senator and his wife expect to leave early in the New Year for the capital, where they will spend the remainder of their lives. After 29 years as medical health officer of this city, the senator has resigned. He will be succeeded by Dr. Lafferty.

Great Britain Takes Lone Stand In Respect To German Reparations

Paris.—France gained an important victory in the Allied Reparations Commission when the commission, by a vote of three to one, declared Germany involuntarily in default in her wood deliveries for 1922.

France, Belgium and Italy stood in favor of the declaration, while Great Britain cast its ballot against it. The decision of the commission was immediately communicated to the Allied Government for their action. It may have a vital effect on the reparations problem if France can retain the support of Italy and Belgium when the reparations question is discussed at the January meeting of the president.

The lone vote cast against the declaration by Great Britain was in accordance with British policy, which has been opposed to declaring Germany in default, in the fear that such action might have a disastrous effect on the already precarious state of German finance. Italy's support of France in the balloting came as a surprise, and as an indication that French Mussolini is swinging over to the French side in the reparations controversy.

Ottawa.—That he "cannot believe that any real friends of organized labor are behind the Edmonton strike, as the entire situation seems to have been handled in a manner characteristic of the Workers' party or the so-called Communist party," is the declaration of Hon. James Murdock, Minister of Labor, in telegrams to a committee of the strikers and also to President J. L. Lewis, of the United Mine Workers of America, dealing with the latest phase of the Edmonton situation.

A night letter to the minister signed by Joseph A. Clarke, a former mayor of Edmonton, and by George Latham, A. Paradis, Bickerton, Pearl and Elmer E. Roper, was handed to the Department of Labor. It charged "gross misrepresentations on the part of the mine operators' publicity committee" and sets forth at some length the claims of the latter, who state that acts of violence have been grossly exaggerated and misrepresented.

Replying to Mr. Clarke, the Minister of Labor states in part: "It can answer no good purpose for you and those in whom you are interested to indulge in further efforts to evade the real facts in relation to the unlawful strike in certain of the mines at Edmonton and vicinity."

"The undersigned is as deeply concerned as you or your associates can possibly be in any injustices under which labor may be required to work, but I shall continue to insist, now and always, that labor and the representatives of labor must maintain some degree of every day recognition of law and property."

In his telegram to Mr. Lewis the minister sets forth briefly the history of the strike and exchanges of messages which have taken place with regard to it, and adds that a declaration as to its legality in Mr. Lewis' eyes.

Reserve Seats For Overseas Papers
London.—Announcement is made that admission to the press gallery of the House of Commons is to be accorded six representatives of the press from overseas Dominions.

Certain representatives have for some time been admitted to the members' lobby and the press writing rooms.

War on Betting Traffic
Detroit.—Complaints against hand-book men, newspapers publishing betting odds and dealers handling such publications, are to be made here, Police Commissioner James Inches announced. All periodicals, including out-of-town newspapers sold here, will be affected by the order to be issued.

Premier Regina Lawyer E.C. Regina, Sask.—J. F. Frame, K.C., prominent in Saskatchewan legal circles, died suddenly at his home here of apoplexy.

He had served on a number of Government commissions and in 1919 declined a judgeship.

Great Britain Takes Lone Stand In Respect To German Reparations

Paris.—France gained an important victory in the Allied Reparations Commission when the commission, by a vote of three to one, declared Germany involuntarily in default in her wood deliveries for 1922.

France, Belgium and Italy stood in favor of the declaration, while Great Britain cast its ballot against it. The decision of the commission was immediately communicated to the Allied Government for their action. MRS. DAVIS NERVOUS WRECK

Tell Women How She Was Restored to Perfect Health by Lydia E. Pinkham's Vegetable Compound

Winnipeg, Man.—"I cannot speak too highly of what Lydia E. Pinkham's Vegetable Compound has done for me. I was a nervous wreck and almost had to force myself to do my work. Even the laundrymen when doing my laundry made me feel as if I must scream if they did not get away from me. I could not even speak to my husband. The doctor said he could do nothing for me. My husband's mother advised me to take Lydia E. Pinkham's Vegetable Compound and I started it at once. I was able to do my work once more and it was a pleasure, not a burden. Now I have a fine working baby and am able to nurse her and enjoy doing my work. I cannot be too recommending such a medicine, and any one seeing me before I took it, and seeing me now, can see what it does for me. I am only too pleased for you to use my testimonial."—Mrs. Emily Davis, 721 McCrete Street, Winnipeg, Man.

Lydia E. Pinkham's Private Treatise—Based upon "Aliments Feminae" to Women—Will be sent you upon request. Write to the Lydia E. Pinkham Medicine Co., Cobourg, Ont. This book contains valuable information.

NEW YEARS' MESSAGE

TO ALBERTANS

Government House, Edmonton.

To The People of Alberta:

Almost imperceptibly Father Time has woven the months of 1922 into the fabric of the past and on the threshold of another January there has again fallen to me the honour of extending to the people of Alberta, a New Year's greeting, backed by a message of continued hope and unshaken faith in the future of our country.

In the spring of the year that has just closed a spirit of cheerful optimism was to be found everywhere. We thought the worst was over and that 1922 would inaugurate a new period of developing prosperity. While owing to various conditions prices were low and our products did not realize as much as we had hoped for, yet we must thankfully acknowledge that in grain, dairy and coal production we have very little cause for complaint and that settlers of Alberta are in a better position today than the people of most other countries of the world.

We have the soil, we have the climate, we have the people and with the solution of some of our pressing economic problems, there is no reason why the people of Alberta should not look forward to a great measure of prosperity in the not distant future. Our path has been upward and it will continue to be upwards, for such is the fate of the pioneer in every land, but if we persevere with the same grit and determination which carried us through five years of war we and if not we, our children, will enjoy the benefits of the great inheritance conquered by the pathfinders.

Times are changing and a new order of things is springing up. Our ideas of our relationship to our fellow men and to the country in which we live are becoming clarified; and we have a better understanding of what is to be expected of us as citizens.

Kindness, generosity, tolerance and goodwill must enter largely into the new standard of citizenship.

These, dear friends, are some of the thoughts I would pass on to you on this, the first day of the New Year. May one and all accept my heartfelt wishes that the coming year will bring Health, Prosperity and Happiness.

(Signed) R. G. BRETT,

Lieutenant-Governor.

A CHRISTMAS GREETING

NICELY STATED

"Beloved, I wish above all things that thou mayest prosper and be in health, even as thy soul prospereth."

3rd John, verse 6.

There is needed a new and properly religious type of Christmas greeting, whose sentiments resemble those of the text. There are a host of foolish, aimless, unworthy things that go by the name of Christmas greetings and it is a shame to use the name of Christ in connection. Jokes and jests about Santa Claus, reindeers, fat turkeys, and mince pies with but one rarely sublime sentiment like the angel's song, "Glory to God in the highest." The above is a beautiful Christmas greeting. "I love you in truth, Gaius," and then follows a comprehensive wish that is the high tide of Christian devotion. In this we find a triangular blessing, soul, body and estate, in which the usual order is reversed. We usually say, "If so and so were as good as he looks or if he prospered in spiritual things as he is able to make money what a man he would be." John wishes that Gaius' body, health and temporal affairs may prosper in the same high fashion that he is making good in religion. Gaius, had the right idea. He had taken Jesus at his word, and sought first the Kingdom. There are indeed people whose hearts have become engrossed so completely with the affairs of the Kingdom that business and even health suffered. They are not numerous.—E.N.

WHY SHE TOLD

The young man was very angry. "But, dearie, didn't I ask you to keep our engagement a secret for the present? You promised me you would."

"But, Charles, dear, I really could not help it. That hateful Marion said the reason I wasn't married was because no fool would ever propose to me, and so I told her you had."

HOGMANAY FOR SCOTS IN CANADA

Noo, tho' you come frae Glasen, 'auld Reekie or Dundee;

Or frae fine Fife or Aberdeen, come join this night wi' me.

O, if the blood o' Scotland, rins fast through your veins,

Ye'll come wi' us for merry fellowship and honest gains.

E'en tho' it be a 'Burr an' Ben's Cot, or Manson grand;

Let like Scot in Canada, tak' ane another's hand.

O let our spirits tak' their flight across the ocean blue.

To meet the freens we miss sae sair, the freens sae leal an' true.

And when the auld town clock shall chime the light o' o' the peas,

We'll clasp the hands o' those we love, aye, maybe drop a tear.

Then when the bells begin to ring we'll sing like Scots sae braw,

That sang that fondly bids A Guid New Year to 'a' an' a'.

Tis their the band will strike the chords o' music soft, sublime,

And once again we'll sing wi' glee, "The Days o' Auld Lang Syne."

We'll stop a wee an' start again, the auld folks amile we'll see,

As Granny sings "Old Robin Gray" an' "Scotland's Hill for Me."

And no again to Gae we'll raise our voice in solemn prayer,

Tae ask His blessing on us a', that we may sin nae mair.

Again the strains o' music fa' sae softly on the ear,

"Abide With Me," "Lead Kindly Light," throughout the coming year.

Then Scots throughout all Canada join wi' me when I say—

"A Guid New Year to 'a' an' a' This Happy Hogmanay."

And may we in our fancy meet, wi' a' our ain folks dear;

Tho' yet they seem sae far awa' our hearts are ever near.

(Mrs) J. K. Adams.

HARPER-PINKNEY NUTIALS

NOTICE TO EMPLOYERS OF LABOR

The Union church, Blairmore, was the scene of a pretty wedding at five o'clock on New Year's afternoon, when Miss Blanche Pinkney became the bride of Mr. Elmer Harper.

At the appointed hour the church was filled with guests and friends. The bride party marched to the altar, to the strains of Mendelssohn's Wedding March, through an aisle of white ribbon and daisies. The bride was given away by her father, Mr. F. M. Pinkney. Miss Cecile Marquis acted as maid of honor, while four charming misses, Betty Thompson, Margaret Windsor, Mabel Thompson and Lillie Hornquist, attended as train bearers and flower girls. Donald Dewar of Bellevue, supported the groom. Rev. W. T. Young was the officiating minister. During the signing of the register, Mr. J. Cranney gave a beautiful rendition of the solo "Because."

The bride was handsomely gowned in ivory satin, headed with crystal. The wide sleeves were of silver lace and the veil of tulle was crowned with orange blossoms. She carried a shower bouquet of pink roses and Maries.

The maid of honor wore old gold crepe de chine, beaded in bronze and carried a sheaf of bronze chrysanthemums. The little attendants wore dresses in blending shades of taffeta and carried bouquets of pink and white carnations.

Immediately after the ceremony, a reception was held at the Greenhill Grill. The bride party stood in a bower of evergreens, festooned with white streamers and bells. The long tables were decorated with a profusion of flowers and smilax. About eighty guests sat down to a feast of the season's good things. The toast to the bride was proposed by Mr. Huston, the groom responding. Rev. Mr. Young made a few remarks, ending with a toast to the parents, Mr. and Mrs. F. M. Pinkney. Mr. J. E. Gillis roared the attendants. Dancing was then the order of the evening.

Mr. and Mrs. Harper left for points east and on their return will reside in West Blairmore.

B. A. Kiernan, of Wycliffe, B. C., stopped off here for a few days during the week, enroute to Calgary.

Over two hundred million dollars were spent in the home stores by Manhattan shoppers during the holiday season.

The Mississippi man, aged 94, who recently became the father of twins, is a reminder that all the good men do not die young.

They say the reason why some men are bald is because they use their brain too much. Perhaps that accounts for a woman having no moustache—she uses her mouth too much.

Their Honors, Clare Snyder and John Patterson, of Blairmore, who had been attending a regular session of the provincial boys' parliament at Edmonton, returned to town on Monday morning.

By an amendment to the Quebec liquor law, rural districts will be given the right to have taverns for the sale of beer by the glass. At present, sale by bottle at grocers only is permitted. Sale of wine by the glass in rural taverns is not likely to be permitted.

One hundred thousand dollars have been voted by the International of the U. M. W. of A. towards the strike now in progress in the Edmonton coal fields. Twenty-five thousand of this amount has already been received.

J. H. Davis has installed one of the most complete radio receiving sets in Alberta. The set is a three-tube one and is capable of receiving from points 2,000 miles distant. Mr. Davis has received through this radio, concerts, speeches and general news from San Francisco, Los Angeles, Portland, North Dakota, Chicago, Chicago, Vancouver, Winnipeg, Edmonton and Calgary—Medford Times.

Being Chapter 79 of the Ordinances of 1901, With Amendments.

SECTION 35A.—Subject to the approval of the Minister, any School Board may by resolution fix a minimum tax to be paid by any person assessed upon the assessment roll, at the sum of Four Dollars (\$4.00) and may require that every male resident of the district of the full age of 21 years who has resided therein for a period of one month or over, and has not been assessed on the assessment roll, shall pay an annual tax of \$4.00 for school purposes to be collected at any time after the First day of January in each and every year, and such school tax shall be payable by such resident whether he has resided in the District before the date of the completion of the last revised assessment roll or not; but in the case of collection of such tax, the name of such resident paying, shall be added to the assessment roll.

(2) Any person liable to pay such tax shall pay the same to the secretary-treasurer of the district, or to such person as is appointed by the Board to collect the same within three days after the demand thereof, but in case of neglect or refusal to pay, levy may be made by distress and sale of goods and chattels of the person in default as provided in this Ordinance and to the assessment roll.

(3) It shall be the duty of every employer to furnish the secretary of the school district in each and every month, and within three days after receipt of a request in writing to that effect from the said secretary, a list of the names of the persons in his employ, and residing within the said district. Every employer failing to comply with the provisions of this subsection shall be guilty of an offence and liable on summary conviction before a justice of the peace to a penalty not exceeding the sum of \$50 and costs for each offence.

(4) The Secretary by notice in writing, may require such employer or employers to pay to the district the tax due and payable by any of their employees, which tax shall be paid by the employer or employers within one month after notice by the Secretary as aforesaid, and may be deducted by the employer or employers from the wages or salary of the employee. Any employer who has been previously demanded from such employer or not, as hereinbefore provided, and who nevertheless fails to pay a tax of not less than four dollars to a school district he shall not be liable to payment of a tax levied under the provisions of this section for the same year.

(5) Where any employer fails to pay any tax after being duly required to do so, within the time herebefore limited, his goods and chattels may be distrained in the same manner as the goods and chattels of a person liable to pay taxes are assessed may be distrained.

(6) All taxes which an employer is duly requested to pay may be recovered as a debt due the district from such employer.

J. R. GRESHAM,
Secretary-Treasurer.

BIGGEST NEWSPRINT PLANT TO BE IN NEWFOUNDLAND

The project calling for the development of vast resources of water power in the Humber district of the north-western interior of Newfoundland and the creation there of the largest newsprint plant in the world with a daily capacity of 400 tons, will be begun early this year, according to an announcement made on December 21 in New York shortly after his arrival from England, where he closed final arrangements, by Sir Richard Scott, Prime Minister of Newfoundland.

The development of the water power resources, which amount to 250,000 horsepower, will begin immediately, he said, and about 30,000 horsepower of the total power will be made available some time next year. The construction of the newsprint plant, at Humbermouth, will be completed in a year and a half and by the time the point of maximum production has been reached the capacity of the plant will be larger than any now existing newsprint mill. This increase of the world's total production of newsprint with 140,000 tons a year will not, in the opinion of Sir Richard, materially lower the cost of this product, but should undoubtedly raise the supply to the general level of demand.

Extensive timber areas of spruce in the Humber district, which will be utilized for the production of newsprint pulp, are now in the hands of the N. Newfoundland Products Company, an organization which has held the rights to these lands by an act of the Newfoundland Legislature for the last ten years. A large British concern, the Armstrong Whitworth Company, which is building the steamship Newfoundland, will have full charge of the development of the water power and the construction of the newsprint plant.

Bonds to the amount of \$4,000,000 sterling have been issued to cover the cost of the project, and half of this sum has been guaranteed by the British government under the trade facilities act, while the other half has been underwritten by the Newfoundland government. Complete plans for the undertaking will be submitted to the Newfoundland Legislature early in the year. —Toronto Saturday Night.

WEDDING BELLS

Wedding bells have been ringing so continuously during the past week that some of us are looking for a cessation to give us an opportunity to rest.

Two pairs were united in the holy bonds of matrimony on Saturday evening last and on Monday and the Rev. W. T. Young was an accessory to the trouble in every instance.

CHERRY-HARRISON

On Saturday evening last, at the Union parsonage, the marriage took place of Mrs. Dora Harrison late of Seattle, to Mr. Thomas Cherry, of Blairmore. Mr. and Mrs. Cherry will take up residence here.

ROBOCH-POCH

On the same evening, Rev. Mr. Young united in wedlock Mrs. Annie Poch, of Blairmore, to Mr. F. Roboch, also of Blairmore. The ceremony took place at the residence of the bride, only a few intimate friends being present.

PITT-GIBSON

On Monday evening at the Union church, the marriage took place of Mrs. D. A. Gibson to Mr. A. J. Pitt, who will make their residence here.

HARPER-PINKNEY

The principal event of the week was the marriage of Miss Anna Jean Blanche Pinkney to Mr. Elmer Arthur Harper which event was solemnized in a public function at the Union Church at 5 o'clock on Monday evening. The church was beautifully decorated for the occasion.

A farmer in Switzerland withdrew his savings of a lifetime from the bank and hid it in the barrel of his shotgun. A rabbit stopped outside his door and the farmer grabbed the gun and fired. He got the rabbit straight, but it cost him 2000 Swiss francs, or about \$365.

HOW THE CHINOOK IS FASHIONED

So few people seem to know the cause of the chinook wind, so prevalent this season, that I will try and explain it. First of all there are two things that must be known and understood before proceeding to explain the chinook wind itself:

1. Air pressure. The higher one goes, the rarer the air owing to the less air above to compress the lower layers. Every one knows how air is heated under compression, as in the ordinary cycle pump, and is cooled on expansion on the reverse way.

2. Warm air holds in solution or vapor more water than cooler air. We won't go into the actual cause of the winds, but just presume that the wind is blowing from the west or southwest from the Pacific ocean or to prairies.

The air over the Pacific is very warm and moist and being at sea level, is therefore as dense as possible, but a few exceptions when the land is below sea level. On its journey eastward, the air first strikes the Pacific slope. Up this slope the air rises to clear the tops, and in so doing, it is expanded by the lesser pressure, and cooled, thereby condensing the excessive moisture out of it as rain. Now having reached the top, the air starts to descend again, a little, thereby warming up a bit under compression. Still going eastward it encounters another ridge perhaps a little higher than the last, and consequently on reaching the summit, rain and snow on the western slopes of the mountains. The air by this time is getting very dry. It starts down the east slope of the Rockies (in this case), and having several thousand feet to fall, it warms up considerably. Now having got rid of its moisture, or a lot of it, the air is very dry indeed, compared to the quantity of moisture it could hold, being warmed up, so that it has a great "appetite" for water and it not only melts snow but dries it up almost as fast as it melts it, and as it travels east and northeast over the nearly level prairies the air is gradually cooled, by melting the snow it has absorbed on its prairie journey.

This latter is the chief cause of a big snowstorm after a chinook wind on the prairie, when a stream of cold, damp air moves down from the north or northeast which is so often noticed on the northern prairies, of Alberta.

The same thing happens in summer, when we get the "hot" winds, which are really chinook winds, and which again accounts for the aridity of the prairies of southern Alberta west of the mountains, in the path of these chinooks.

It will be noticed that the Edmonton district is wetter and colder (in winter) than Calgary on the average for this reason: Deserts will usually be found east of big mountain ranges on the globe where the west winds prevail. The Föhn of Switzerland is a similar wind.

B. S. WIMBUSH, Mem. R.A.S.C.

GIRL'S STATEMENT WILL HELP BLAIRMORE

Many women will profit by the following statement of one of their sex: "I was afraid to eat on account of stomach trouble. Even rice did not agree. After taking Adick's I can eat anything." Adick's acts on BOTH upper and lower bowel, removing foul matter which causes stomachache. EXCELLENT for gas on the stomach or sour stomach. Guards against appendicitis. It brings out poisonous matter you never thought was in your system. BLAIRMORE PHARMACY.

We must thank Messrs. F. M. Thompson Co., J. Montalbet, S. T. Jones, Cosmopolitan Hotel, Paul Beratelli, Canada Printing Ink Co., A. M. Morrison and Crows' Nest Pass Motors for beautiful calendars and greetings for 1923.

The Burmese believe that the soul leaves the form of a butterfly and leaves us while we sleep, and that the story of its roaming is the stuff of which dreams are made.

BLAIRMORE TAKES FIRST GAME FROM LETHBRIDGE

The first league game here this season took place at the local arena last night between Lethbridge and Blaimore with the score 10 to 4 in

It was a shame the way the locals walked over Lethbridge.

favor of the home team. The visitors did not arrive until 8.20, and the game started about 9 o'clock with a packed house.

The first period started with both teams showing up pretty even, but the locals started a scoring bee when Rennick netted one unassisted. He

Reddick and Rennick were the big noise last night. They got four goals each.

again scored from Turner, Reddick netted one alone, and Turner also broke into the scoring column when he beat Podger in a mix-up. When things had cleared up, Blaimore had a lead of four goals and were never in danger during the rest of the game. This period was very fast and easy chances were missed by both teams. Ennis was playing stellar goal and made several difficult saves when the opposition got through the defence. Podger, on the other hand seemed to be off, as he should have stopped at least two of the four goals.

Podger had shots coming in from all directions and 10 of them counted.

Reddick opened the scoring in the second period off a rebound which was an impossible shot for Podger to stop.

The period was half over before Lethbridge broke into the scoring. F. Henderson scored from a rebound and W. Henderson scored from Wallace soon after. Rennick's flashy wing man of the locals, apparently took this as an insult, so he banged one in from a mix-up in front of Podger's etidale, and scored another off Mackie. During this period, Podger tripped Turner and was put in the cooler by Referee Gillespie. Ennis was still air-tight and had no chance whatever to save one of the visitor's goals.

In the final span, Lethbridge kept Referee Gillespie on the move when they started a little rough work, but he handled them well, several of them

going to the cooler for clashing and tripping. Reddick opened scoring again unassisted. Reber scored off Butterfield. Reddick came back again and scored his fourth tally alone. F. Henderson got his second unassisted and Mackie finished up with a solitary rush which went by Podger.

Of the local team, Reddick and Rennick started by scoring four goals each, Turner got one and Mackie one. The rest of the team played stellar hockey and hooked and back-checked to good advantage. Of Mutt Ennis little needs be said. He played goal. The Lethbridge boys, while beaten badly and skated all around, did not show very good condition, but despite this, they all played very good. Pod-

McPhee and Henderson when the locals came down the ice.

fer has a bad habit of dropping to his knees in cases where he should not do so. The sooner he stops this practice the better it will be for his team, for he seems to lose his balance when he drops from a standing position.

Dr. Gillespie, of Pincher Creek, referred to the satisfaction of both teams.

The lineup:

Blaimore	Position	Lethbridge
Ennis	Goal	Podger
Reddick	Defense	McPhee
Turner	Defense	F. Henderson
Mackie	Forwards	Wallace
Rennick	Forwards	Sirr
LeVasseur	Forwards	Wallace
Wheatley	Forwards	Butterfield
Vejprava	Forwards	W. Henderson
Harvey	Forwards	Reber

Goal Summary—

First Period—1. Rennick, unassisted. 2. Rennick from Turner. 3. Reddick, unassisted. 4. Turner in a scrimmage. Blaimore-4, Lethbridge 0.

Second Period—5. Reddick on rebound. 6. F. Henderson on rebound. 7. W. Henderson from Wallace. 8. Rennick, in a scrimmage. 9. Rennick from Mackie. Blaimore-7, Lethbridge 2.

Third Period—10. Reddick, unassisted. 11. Reber from Butterfield. 12. Reddick, unassisted. 13. F. Henderson, unassisted. 14. Mackie, unassisted.

Final Score—Blaimore 10, Lethbridge 4.

After the Game—Lethbridge fans hiking for the train.

Misses Francis Gibson and May Plinn, who are teaching at Sundial, Alberta, and who spent Christmas here with the former's parents, Mr. and Mrs. H. Gibson, return to their post tomorrow.

A Chicago banker attributes the increase in savings deposits in this city to the fact that bootleggers are laying away the profits in their wet goods for a rainy day.

Feb. 9—Pincher at BLAIRMORE.
Feb. 10—BLAIRMORE at Lethbridge.

SPORT NOTES

Last night's games—Calgary 1, Vancouver 0, overtime played. Edmonton 2, Regina 4. Blaimore 10, Lethbridge 4.

Podger has made a bad start this year. His first game shows he allowed 10 goals and drew one penalty for tripping Turner.

The Vets had better start a hunt for some recruits.

When Lethbridge gets behind they start the rough stuff. In the third period last night they were only held down by Referee Gillespie.

Watch today's Lethbridge Herald for allbies—"The boys were not in shape after their train trip." "Blaimore has had constant practice by having ice, while the locals have had no ice to practice on," and several other stale excuses too numerous to mention.

Pincher Creek has adopted the name of Indians. Just on the side we think it very appropriate.

Next time the Vets are to play in The Pass, we'll wager they come up on the a.m. train.

The thanks of the Lethbridge hockey team and fans are due the members of Bellevue Band for rendering so pathetically, at the proper time on Wednesday night that dear old air, "We ain't nobody's darling."

The locals will play a return exhibition match at Coleman tomorrow (Friday) night.

The ladies' hockey team expect to stage a game here in the near future.

The juniors played at Coleman on Tuesday night and while they had the edge around the nets they lost by a score of 5 to 2. The Coleman goalies saved his team from a certain defeat by his excellent work. Wheatley got both goals for the local boys. Coleman drew two penalties to Blaimore's nothing, and Archie McLeod had two ribs cracked when Evans caught him amidship. Blaimore lineup was as follows: Goal, Ennis; Defense, J. Wheatley, A. McLeod and C. Howe; Forwards, G. Bond, Fisher, W. Wheatley, Webb and Knapp.

Coleman went to Bellevue on Tuesday night of this week for the opening go of the season and in a fast game trimmed Barbour's team to the tune of 4 to 2. Spectators filled all space and there wasn't room for another. The brand of hockey displayed was clean and fast and all enjoyed it. Both Johnson and Thomson in goal appeared to be in fit condition.

Scoring was done as follows: First period—Graham 15 minutes, Graham 3 minutes, unassisted—Coleman 2, Bellevue 0.

Second period—Towell from Mackie, 15 minutes; Nelson from Jewell, 4 minutes; Dewar, unassisted, 4 minutes—Coleman 3, Bellevue 2.

Third period—Graham, unassisted, 19 minutes.

Final Score—Coleman 4, Bellevue 2.

The game was refereed by M. G. Rhynas, of Blaimore.

COLEMAN TEAM IS WINNER OF CUP

International Coal & Coke Co. Team Gets Coderre Cup in National Competition.

OTTAWA, Dec. 28.—The Coderre cup, a valuable trophy offered by the St. John Ambulance association to teams competing in first aid, was won this year by No. 1 team of the International Coal & Coke Co., of Coleman, Alberta.

Next in order are team No. 1 of the Western Fuel Corporation, Nanaimo, B. C.; No. 3 team of the same company, and then No. 2 team. The fifth team is that of the Crows' Nest Pass Coal Co., of Fernie; the sixth team that of the same company at Michel, B.C. Only nine points separated the champion team and team No. 1 of the Western Fuel Corporation.

The cup, emblematic of the miners' first aid championship of Canada, is named after Mr. Justice Coderre who donated it to the association when he was minister of mines in the federal government.

WILL BUILD ADDITION TO SCHOOL BUILDING

The regular monthly meeting of the Blaimore Board of School Trustees was held at the schoolhouse on Friday evening last, Chairman Duff, members Chappell, McPhail, McVey and Hamilton, and Secretary Gresham being present.

The minutes of previous meeting were approved as read and several small accounts were passed for payment.

Mr. Michalsky attached a cheque for the sum of \$9.50 to a letter, in which he protested against his assessment amounting to \$250.00. Mr. Michalsky practically challenged proof that his taxes should be more than the \$9.50 he was remitting. It appears that the assessment figures were based on the assumption that he had a large quantity of liquor stored on his premises, which raises rather a critical question, as liquor being a contraband no district has the right to assess same, and on the other hand no person had the right to even assume that liquor in any quantity should be stored on the premises.

However, the secretary was instructed to hold cheque as part payment and to take steps for collection of balance of \$250.00. Board member McPhail felt that as a "Blaimore business man was making three hundred per cent profit," he had no right to kick on his assessment or taxes. He claimed that he himself had no alternative, that when the district wanted four dollars from him to pay for the education of his several children, for a year, it was simply taken from his time check at the office of the West Canadian Collieries and when he had to pay all his taxes (\$4.00) there was no reason why a business man should get away from paying his taxes. He suggested that proceedings should be taken in connection with this and other cases through the medium of the sheriff, and was supported in this contention by other members of the Board whose "four dollars had already been paid in full."

Mr. Cartwright, representing the Mackenzie estate, placed a proposition before the Board, similar to one presented to a recent meeting of the town council, and the Board decided to ask the Secretary of the town council to arrange for a joint meeting of the Council and Board for the night of Thursday, January 4th, at 7.30, when the matters proposed might be considered.

The report of High School Inspector J. Smith was read, and a resolution was passed to the effect that Mr. Smith be notified that the Board was not in agreement with the report on certain points.

Recently, the Board purchased about two hundred pairs of clubs for use of children in physical drill. Some of these had been sold to pupils, but a resolution was passed that they become the property of the district, and that those desiring so to do may return the clubs and receive back the money paid for them.

"A Terrible Experience"

"I Recall My Experiences with the Burglar with Feelings of Horror!"

"How would you feel if you wakened in the middle of the night with a flashlight shining in your eyes and the gruff voice of a man threatening that, 'If you make the slightest noise, I'll shoot?' That was my experience the end of last March when my husband was away in the woods and I was alone with my three children. Everytime I think of this experience a shudder passes over me and as long as I live I shall remember it. At the time I really thought I would die. It's a wonder my heart did not stop beating. I was so weak that even if I had any desire to move, I could not. I was bedded in a cold, clammy perspiration. Even to recall the shocking details now makes me shudder. It was a result of this shock that I contracted a high fever and for hours at a time I was delirious. I got so bad that the doctor finally gave up hope of my ever recovering, but by careful nursing, I was finally pronounced out of danger. The shock had left me so weak, that for no reason whatever, I would suddenly burst into tears. All the life seemed to be taken out of me. I kept getting weaker and weaker, so much so that my husband and children were constantly worrying about me. Doctors prescribed for me and while I willingly tried their medicines, only very few of them did me any good, but unfortunately the good was not lasting. My family asked me if I would try Carbol and I said, 'It was willing to try anything,' but felt that it would not do me any good. Four bottles of Carbol taken regularly, has completely restored my former health and strength, while I occasionally recall my experience with the burglar with feelings of horror, I am otherwise as well and strong as I have ever been. Carbol is the most wonderful preparation I have ever used for building and restoring health and strength. It has done wonders for several of my friends to whom I have recommended it." Mrs. McC.

Carbol is sold by your druggist, and if you can conscientiously say after you have tried it, that it hasn't done you any good, return the empty bottle to him and he will refund your money.

A CORN A TIN BOX!

"Sounds strange, does it not? That is how Mr. J. Carter says Zam-Buk is received by his family. Mr. Carter, who is a member of the family of the late Sir George Carter, is Justice of the Peace and Assistant Clerk of the Circuit Court, Montreal. He first discovered the wonderful power of Zam-Buk by using it for eczema, which it completely ended. Since then he has been using it for all his ailments, and he never without it."

"Allow me to express my gratitude," he writes, "for the benefit I have derived from the use of Zam-Buk. I have proved that it is, without doubt, the finest remedy for eczema. Its general healing and curative powers are immense. We call it 'Our Family Doctor,' and are proud to have it."

Mothers should see that Zam-Buk is always handy, for not only does it cure eczema, but it also cures all skin diseases and cures the blood. It is the most reliable of all skin treatments. All dealers, etc. box.

Zam-Buk

An Aid to Appetite

"Why don't you eat your apple, Johnny?" "I can't wait for Peter. It tastes much better when another fellow is looking on."

Catarrhal Conditions

Catarrh is a local disease greatly induced by constitutional conditions. It therefore requires constitutional treatment. BAKER'S CATARRHAL MEDICINE gives the patient the best of all remedies for the general health and assists in doing so. Circulars free. F. J. Cheney & Co., Toledo, Ohio.

It's a smart woman who can make her own clothes so that her neighbors will not suspect it.

Dragged Down by Asthma. The man or woman who is continually subject to asthma is unfitted for his or her life's work. Strength departs and energy is taken away until life becomes a dreary existence. And yet this is needless. Dr. J. D. Kellogg's Asthma Remedy has brought a great change to an army of sufferers. It relieves the restricted air tubes and guards against future trouble. Try it.

Protecting Wild Life

Canada has led other countries in the matter of conserving wild life, the migratory bird treaty now in force between the United States and this country being largely the work of Canadians who saw in time the inevitable consequences of the birds that were being made upon the game and bird population of North America. The treaty referred to was the biggest single piece of legislation aimed to protect wild life ever put upon the statute books of two great nations. From the Ottawa Citizen.

Time has Tested It—Dr. Thomas' Electric Oil has been on the market upwards of fifty years and in that time it has proved a blessing to thousands. It is in high favor throughout Canada and its excellence has carried its fame beyond the seas. If it were double the price it would be a cheap salve.

There is only one up-to-date text book on ancient history, geography, astronomy and other sciences, and that is the Bible. Rev. Dr. A. D. Williams, of Baltimore, said in a speech.

WORLD HAPPENINGS BRIEFLY TOLD

Dr. Charles Andrew Powers, widely known surgeon, President of the American Society for Control of Cancer, dropped dead in Denver.

France has released the last German war prisoners. They were undergoing punishment for offences against the common law committed during their detention as war prisoners.

The Chilean Government has sent invitations to all the American nations to participate in the Pan-American conference to be held at Santiago, beginning March 20, 1923.

Notice has been given in the Chamber of Deputies favoring the extension of the franchise to the women of France. The minimum age limit would be 21.

Homeless men in Montreal to the number of over 1,100 were provided with Christmas dinners by the social service agencies, and these were followed by moving pictures and other entertainment.

The Orient Express, due in Athens recently, was delayed by a landslide in the Macedonian mountains for 24 hours. Among the passengers on the stalled express were four Near East relief nurses.

The largest air liner yet built in Great Britain has passed official tests. It accommodates 24 passengers and three-quarters of a ton of luggage. At top speed the aeroplane makes 100 miles an hour.

Lord Mountbatten, who has just returned from an extended honeymoon in America, has been appointed to the British Legation, effective January 10. The Revenge is the flagship of the first battle squadron, now in the Mediterranean.

George A. Willis, superintendent of messenger boys for the Boston News Bureau, was shot and instantly killed by two bandits, who robbed him of the boys' payroll. The holdup occurred in the basement of the plant. The bandits escaped.

The last horse-drawn fire engine in New York has just been mustered out of service. It was in a Brooklyn station. Horses have pulled fire apparatus in this city since 1865, and the final performance was made the subject of appropriate ceremony.

Worms, however generated, are found in the digestive tract, where they set up disturbances detrimental to the health of the child. There can be no comfort for the little ones until the harmful intruders have been expelled. An excellent preparation for this purpose can be had in Miller's Worm Powders. They will immediately destroy the worms and correct the conditions that were favorable to their existence.

A Careful Star

A new star has been found which travels 2,500,000 miles an hour. So far as known, it has never been charged with hitting a pedestrian. Toronto Telegram.

One of the largest worms in the English language is Disestablishmentarianism, which contains twenty-four letters.

Although they cover about the same area, the United States has about 250,000 miles of railroad and Australia about 75,000.

A pessimist finds consolation in the fact that he wasn't born an optimist.

Origin Of New Varieties Of Table Corn

From Annual Report of W. T. Macoun, Dominion Horticulturist

As corn is one of the most important vegetable crops, much attention has been paid to it in the Horticultural Division, one of the main lines of work being the search for and origination of new varieties of sweet corn that would be earlier and, if possible, better than those already on the market. It had been found by experience on the prairies that the square corn would develop at a lower temperature than the sweet varieties and, as the season for corn is short in the prairie provinces, a special effort has been made to obtain sweet varieties which would develop rapidly in that relatively cool climate.

As the following three sorts have been introduced and the Early Malcom has already become a prominent and much sought for variety, it seems desirable to publish the origins of the three sorts which are, it is believed, the three earliest varieties of sweet corn that can be obtained anywhere.

Pickensville.—In the year 1916, Thos. A. Peters, Hampton, N.B., sent to the Horticultural Division some seed of a black sweet corn. In 1918 this was crossed at Ottawa with the Sweet Squaw, the latter being the seed parent.

From this cross the best black train was selected, and it was named Pickensville in 1919. Since the cross was made it has been selected each year to improve the size of the ear and at the same time retain the extreme earliness. This has been found to be the earliest sweet corn ever grown at Ottawa, with the exception of the original variety from Mr. Peters. It is doing very well in different parts of the prairies. This is a black sweet corn. It has a short ear, the average length being five inches. The average number of rows to the ear is eight.

Early Malcom.—The Early Malcom corn was obtained by selection from the Early Malakoff, which variety was introduced from Russia by Prof. Hansen, of South Dakota. The selection was begun in the Horticultural Division at Ottawa in 1909 and by 1918 the variety was so changed that it was decided to name it Early Malcom. Since that time it has been steadily selected for better ears and earliness.

This variety has become very popular, and seed firms both in the United States and Canada are now offering it for sale and are eager to get seed. The average length of ears is six inches and number of rows to the ear twelve.

Sweet Squaw.—Sweet Squaw is a cross between White Squaw and Early Malakoff made at Ottawa in 1913, and after selections had been made the best was named Sweet Squaw in 1916. This variety has also become very popular in the prairie provinces particularly, and it is believed to be a valuable acquisition. The average length of ears is six inches and number of rows to the ear twelve.

For Catarrh.—It is one of the chief recommendations of Dr. Thomas' Electric Oil that it can be used internally with as much success as it can externally. Sufferers from catarrh will find that the Oil when used according to directions will give prompt relief. Many sufferers from this ailment have found relief in the Oil and have sent testimonials.

One Thing Needed

"Mama, Tige's begging. Must I give him a piece of my cookie?" "Of course you must."

"Well, I haven't any cookie!"

Value of Canadian Field Crops

A Comparison of Values For 1921 and 1922.

The Dominion Bureau of Statistics has issued a preliminary estimate by provinces of the value of this year's field crops, as compared with the final estimates of the two previous years 1920 and 1921. The values per unit assigned to each crop represent the averages received locally by farmers. They are subject to revision after the compilation of final returns from crop correspondents in January, 1923.

For the whole of Canada, the total value of the principal field crops of 1922, as now preliminarily estimated, amounts to \$24,129,500 as compared with \$21,867,670 in 1921, \$18,524,050 in 1920 and \$15,537,170 in 1919. The highest aggregate for Canada on record. The total for 1922 comprises: \$23,958,000 for wheat, as compared with \$22,326,000 in 1921 and \$20,757,300 in 1920; \$19,783,000 for oats as against \$18,095,300 in 1921 and \$20,115,400 in 1920; \$22,783,000 for barley, as against \$22,354,150 in 1921 and \$22,314,400 in 1920; \$21,235,000 for rye, as against \$15,306,300 in 1921 and \$15,085,660 in 1920; \$20,873,500 for other grains, as against \$18,036,939 in 1921 and \$16,396,700 in 1920; \$14,253,000 for potatoes, as against \$12,457,600 in 1921 and \$12,592,200 in 1920; \$20,775,000 for hay, clover and alfalfa, as against \$20,975,300 in 1921 and \$22,053,900 in 1920; and \$78,172,000 for other root and fodder crops, as against \$57,719,200 in 1921 and \$101,716,400 in 1920.

With few exceptions, the average prices per unit do not differ greatly from those of last year, the prices being as a rule somewhat more. For wheat, the price for 1922 is 85 cents per bushel, as against 81 cents last year. Oats are 38 cents against 37 cents, barley is 46 cents against 47 cents, rye 59 cents against 72 cents, peas \$1.81 against \$1.86, beans \$2.38 against \$2.30, buckwheat 80 cents against 89 cents, flax \$1.77 against \$1.44, potatoes 54 cents against 77 cents, turnips, etc., 27 cents against 34 cents. The abundance of the hay crop, as compared with last year's scarcity is reflected in the price which is for 1922, \$11.15 per ton, as against \$2.50 per ton last year. Similarly alfalfa is \$12.34 per ton as against \$19.95. In the provinces, the total value of the field crops is as follows, the final estimated totals for 1921 and 1920 being given within brackets: Prince Edward Island, \$10,359,800 (\$14,592,970 in 1921 and \$18,530,400 in 1920); Nova Scotia, \$24,236,000 (\$29,556,400 in 1921 and \$24,236,000 in 1920); New Brunswick, \$23,325,400 and \$48,000.

Ear Tags For Hogs. The Livestock Commission announces that an approved ear tag has been devised for marking commercial hogs. Tags will shortly be available for distribution to farmers wishing to ship co-operatively or sell according to grade at local shipping points. Arrangements are being made for distribution in the various provinces.

First Measurement of Earth Crustiness, head of the Alexandria Library, first measured the circumference of the earth in 545 B.C.

Watchmaker and Jeweler Blainmore.

Cowley Happenings

H. D. McMillan has presented a bill of Lethbridge voters.

Miss Yelma Kirk of Macleod was a visitor here last week.

Mr. and Mrs. Archie Smith and children are Lethbridge visitors.

Several of the local boys attended David Boothby's birthday party, held on Tuesday night.

D. Duffield, who has been a student at the Cowley Hotel, has returned to his home near Lethbridge.

The boxing exhibition here last Thursday night was rather interesting.

When the next session for school trustees comes around, the members will be asked to vote on the proposed changes in the school system.

Rev. Billy Sunday, of Chicago, is expected to visit here on Tuesday evening, Jan. 9th, at 7:30 p.m. The members are requested to attend as an important business will be transacted.
